This kind of 'agency' nonsense is the favourite line of, ahem, many agencies around the world when they are instigating regime change coups targeting populations they have put under severe material pressure for decades.

No-one has agency but everyone has the potential for agency. The only real and meaningful agency in the world is when one is engaged in the struggle against the preeminent hegemonic empire in the world, Pax Judaica. That is the lesson of Gaza.

Insofar as you are not engaged in that struggle, you have no agency at all. You are nothing but a slave to the whims of a Jewish imperialist project which wants to put your daughters on OnlyFans and turn your sons into prancing, preening popinjays consumed by self-obsession. Look at Saudi Arabia under Mohammed bin Salman for how that goes.

Armed Jewish militias. This is a core strategic aim of the Zionist death cult.

The purpose of all the fake 'antisemitic' attacks is not just to outlaw the IRGC. It's also to ensure Jewish supremacists can parade around Canada, Australia, the U.K. and elsewhere with guns to enforce Jewish supremacism.

This is agricultural grade red herring farming. In reality, the Greenland smash and grab is happening at the behest of Trump's Zionist donor Ron Lauder, who wants the territory as part of the essential defence architecture for Pax Judaica, the Jewish Empire being built to succeed America.

The war will be with us long after the Zionist colony in Occupied Palestine is gone - because Jewish supremacism is not only in Occupied Palestine.

The Jewish Empire exists everywhere that the Zionists exist, because they cannot exist without infiltrating, expanding, suppressing, repressing, extracting and ultimately genociding.
